Acknowledgements

The University of Zimbabwe Library would like to extend its appreciation to all individuals and organisations whose invaluable contributions led to the successful publication of the 2024 University of Zimbabwe Annual Bibliography. We deeply appreciate the authors' expertise and dedication which has enriched this compilation. Their commitment to research and knowledge dissemination has significantly enhanced the academic landscape and fostered the advancement of knowledge across diverse disciplines. We also acknowledge the publishers who played a vital role in the scholarly publishing process, ensuring that these works reach the public sphere. Their collaboration and commitment to excellence has been instrumental in sharing the research findings presented in this Bibliography.

Special thanks go to the editorial team, whose tireless efforts ensured the precision, clarity and overall excellence of the publications. Through their diligent attention to detail, the editorial team substantially improved the scholarly value of this compilation

Lastly, the University of Zimbabwe Library expresses its heartfelt gratitude to all partners, both within and beyond the University, for their technical and logistical support throughout the compilation and publishing process. Their steadfast assistance has been instrumental in bringing this project to fruition.

This Bibliography is a collective effort of authors, publishers, editors, peer reviewers, librarians and partners. Their dedication to the pursuit of knowledge has played a vital role in advancing scholarship and promoting academic excellence at the University of Zimbabwe and beyond.

Preface

It is with immense pride that the University of Zimbabwe presents its 2024 Annual Bibliography. This publication features a comprehensive compilation of books, book chapters and research articles produced by our academic community throughout 2024, showcasing a total of 893 significant contributions. This remarkable collection reflects the collaborative efforts and intellectual rigour of our esteemed researchers who are dedicated to advancing knowledge and creativity within their fields. Aligned with the Heritage-Based Education 5.0 Philosophy, this Bibliography exemplifies our commitment to generating knowledge outputs that directly address socio-economic challenges in industry, commerce and society, in pursuit of the National Vision 2030. Under the visionary leadership of the Vice Chancellor and the Executive team, the University of Zimbabwe researchers have risen to the nation's call for innovative, home-grown solutions. Their steadfast commitment to research and innovation harnesses the transformative power of knowledge to tackle contemporary challenges, fostering progress and sustainable development. As we advance on this journey of discovery and transformation, the University reaffirms its dedication to promoting scholarship, driving societal progress, and nurturing a brighter future for Zimbabwe. In an era where the commercialisation of research outputs poses both opportunities and challenges, we remain committed to ensuring that our findings are not only accessible but also contribute meaningfully to public discourse and social change. This Bibliography serves as an invaluable resource for scholars, students, policymakers and practitioners, fostering collaboration, inspiring further inquiry, and stimulating dialogue across disciplines. We believe that the sharing of knowledge is not only a cornerstone of academic advancement but also a vital catalyst for social transformation.

Executive Summary

The 2024 University of Zimbabwe Annual Bibliography presents a comprehensive compilation of scholarly contributions from the University of Zimbabwe’s academic community, showcasing a total of 893 significant works. This compilation spans a wide array of disciplines, reflecting the University’s dedication to addressing socio-economic challenges and contributing to the National Vision 2030 through the Heritage-Based Education 5.0 Philosophy.

Table 1: Contributions by Faculties

| Faculty | Number of Publications |
|---|------------------------|
| Agriculture Environment and Food Systems | 87 |
| Arts and Humanities | 82 |
| Business Management Sciences and Economics | 53 |
| Computer Engineering Informatics and Communications | 19 |
| Education | 59 |
| Engineering and the Built Environment | 54 |
| Law | 21 |
| Medicine and Health Sciences | 270 |
| Science | 92 |
| Social and Behavioural Sciences | 150 |
| Veterinary Science | 6 |
| TOTAL | 893 |

Key Highlights

The Bibliography includes a wide range of research outputs categorised into several fields, thus highlighting the diversity of the University’s scholarly communication landscape.

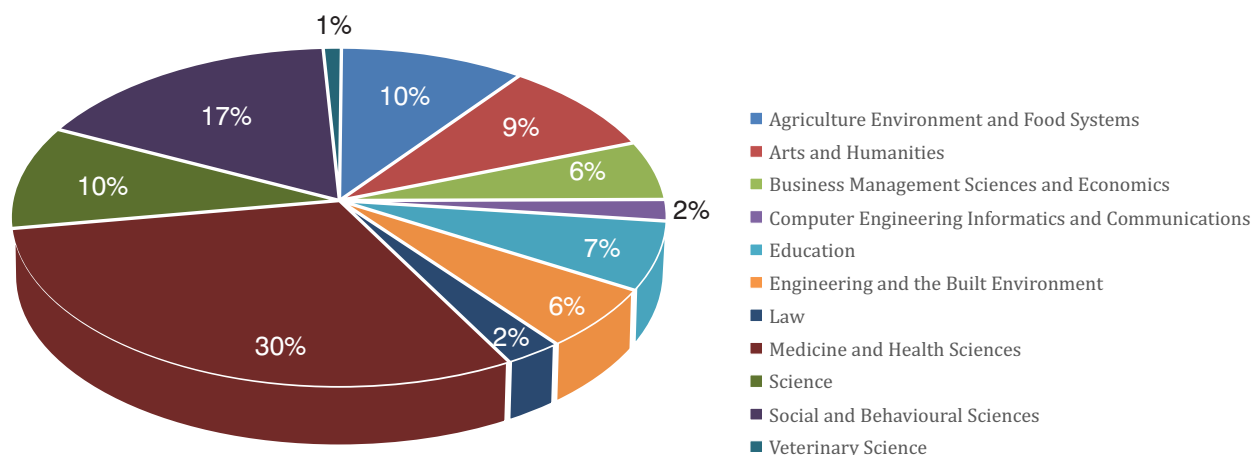

The disciplines with the most remarkable contributions are Medicine and Health Sciences (270), Social and Behavioural Sciences (150), Science (92), Agriculture Environment and Food Systems (87), and Arts and Humanities (82).

Other disciplines that are featured in the Bibliography include Education (59), Engineering and the Built Environment (54), Business Management Sciences and Economics (53), Law (21), Computer Engineering Informatics and Communications (19), and Veterinary Science (6).

Executive Summary

University of Zimbabwe 2024 Publications by Faculty

In line with the National Vision 2030, this Bibliography evidences the University's commitment to generating knowledge outputs that address pressing socio-economic issues in industry, commerce and society. Under the visionary leadership of the Vice Chancellor and the Executive team, researchers have risen to the challenge of developing innovative, home-grown solutions.

Future Directions

As the University of Zimbabwe continues its journey of discovery and transformation, this Bibliography serves as an invaluable resource for scholars, students, policymakers and practitioners. It aims to foster collaboration, inspire further inquiry, and stimulate interdisciplinary dialogue, reinforcing the belief that the sharing of knowledge is essential for academic advancement and social transformation.

In conclusion, the 2024 Annual Bibliography not only documents the intellectual contributions of the University of Zimbabwe, but also stands as a testament to the institution's role in promoting scholarship and driving societal progress.

This Bibliography not only highlights the University's research output, but also its role in fostering collaboration and dialogue across various disciplines. It serves as a valuable resource for scholars, students, policymakers and practitioners, promoting the sharing of knowledge and driving social transformation.
